Independent Auditor's Report

To the Board of Education of Central Lyon Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Central Lyon Community School District (District), Rock Rapids, Iowa, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Central Lyon Community School District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the District's Proportionate Share of

the Net Pension Liability, the Schedule of District Contributions and the Schedule of Funding Progress for the Retiree Health Plan on pages 8 through 15 and 44 through 51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Central Lyon Community School District's basic financial statements. The previous audits for June 30,2007-2014 were done by another firm, but were in accordance with the standards referred to in the third paragraph of this report. The financial statements for the years ended June 30,2007-2015 (none of which are presented herein) expressed unmodified or unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 6, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

rant and Williams. Inc.

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated January 17, 2017 on our consideration of Central Lyon Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering Central Lyon Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Central Lyon Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2016. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2016 Financial Highlights

- General Fund revenues increased from \$7,487,015 in fiscal year 2015 to \$8,334,348 in fiscal year 2016, while General Fund expenditures increased from \$7,877,630 in fiscal year 2015 to \$8,246,254 in fiscal 2016. The District's General Fund balance increased from \$425,718 in fiscal 2015 to \$513,812 in fiscal 2016, a 20.69% increase. Spending authority has been carefully monitored and must be continued to be monitored for the future financial health of the district.
- The fiscal year 2016 General Fund revenues increase was attributable to increases in property tax and state foundation aid. The increase in expenditures was due primarily to an increase in the cost of instruction and support services. As a result, the District was able to fund all of the expenditures with revenues received in the current year.
- Enrollment declines and a large number of open enrolled out pupils continue to plague the District and create financial burdens now and in the future.

Overview of the Financial Statements

The annual report consists of a series of financial statements and other information, as follows:

- Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.
- The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Central Lyon Community School District as a whole and present an overall view of the District's finances.
- The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Central Lyon Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds.
- Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.
- Required Supplementary Information further explains and supports the financial statements with a comparison to the District's budget for the year, as well as presenting the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions and the Schedule of Funding Progress for the Retiree Health Plan.
- Supplementary Information provides detailed information about the nonmajor governmental funds.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.
- Business-type activities: The District charges fees to help it cover the costs of certain services it provides. The District's school nutrition program and FFA property are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the district as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has two kinds of funds:

• Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Funds.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balance.

• *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, a type of proprietary fund, is the same as its business-type activities, but provides more detail and additional information,

such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and FFA Property Fund.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-1 below provides a summary of the District's net position at June 30, 2016 compared to June 30, 2015.

	Figure A-1										
		Condensed Statement of Net Position									
			(Expressed i	n Thousands	s)

Net Position											
Net investment in											
capital assets	9,874	8,483	84	86	9,958	8,569	1,389	16.21%			
Restricted	2,192	3,227	_	_	2,192	3,227	(1,035)	(32.07%)			
Unrestricted	(3,366)	(3,110)	48	69	(3,318)	(3,041)	(277)	9.11%			
Total net position	\$ 8,700	\$ 8,600	\$ 132	\$ 155	\$ 8,832	\$ 8,755	77	0.88%			

The District's total net position increased 0.88%, or approximately \$77,000, from the prior year. The largest portion of the District's net position is invested in capital assets (e.g., land, building and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net position represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position decreased approximately \$1,035,000 or 32.07% over the prior year. The decrease was primarily due to the completion of the construction of an addition to the school building and pension liabilities.

Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or the legal requirements – the deficit increased approximately \$277,000 or 9.11%. This deficit increase in unrestricted net position was primarily a result of the District's net pension liability net pension expense recorded in the current year.

Figure A-2 shows the changes in net position for the year ended June 30, 2016 compared to the year ended June 30, 2015.

	Figure A-2 Changes in Net Position

Other expenses	358	354	-	-	358 354	1.130%		
Total expenses	10,134	9,121	478	393	10,612 9,514	11.541%		
Increase (decrease) in net position	100	427	(23)	40	77 467	(83.512%)		
Net position beginning of year, as restated	8,600	8,173	155	115	8,755 8,288	5.635%		
Net position end of year	\$ 8,700	\$ 8,600	\$ 132	\$ 155	\$ 8,832 \$ 8,755	0.879%		

In fiscal 2016, property tax, statewide sales, service and use tax, and unrestricted state grants account for 72.49% of the revenue from governmental activities while charges for service and sales and operating grants and contributions account for 100% of the revenue from business type activities. The District's total revenues were approximately \$10.689 million of which \$10.234 million was for governmental activities and .455 million was for business type activities.

As shown in Figure A-2, the District's as a whole experienced a 7.093% increase in revenues and an 11.541% increase in expenses. Unrestricted state grants increased approximately \$276,000 and the operating and capital grants, contributions and restricted interest increased approximately \$249,000. There was an increase in property taxes of \$39,000 and a decrease in the statewide sales, service and use tax of \$97,000. The increases in expenses related to increases in the negotiated salaries, benefits for the District.

Governmental Activities

Revenues for governmental activities were \$10,234,769 and expenses were \$10,134,595. In a difficult budget year, the District was able to balance the budget by trimming expenses to match available revenues.

The following table presents the total and net cost of the District's major governmental activities, instruction, support services, non-instructional programs and other expenses, for the year ended June 30, 2016 compared to the year ended June 30, 2015.

	Figure A-3 Total and Net Cost of Governmental Activities (Expressed in Thousands)							
	To	tal Cost of S	` 1		et Cost of Se	rvices		
	2016	2015	Change 2015-2016	2016	2015	Change 2015-2016		
Instruction	\$ 7,368	\$ 6,578	12.01%	\$ 5,266	\$ 4,867	8.20%		
Support services	2,409	2,188	10.10%	2,096	1,867	12.27%		
Other expenses	358	354	1.13%	43	55	(21.82%)		
Totals	\$10,135	\$ 9,120	11.13%	\$ 7,405	\$ 6,789	9.07%		

For the year ended June 30, 2016:

- The cost financed by users of the District's programs was \$1,080,426.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$1,648,729.
- The net cost of governmental activities was financed with \$3,687,039 in property, \$638,341 in statewide sales, service and use tax and \$3,094,021 in unrestricted state grants.

Business Type Activities

Revenues for business type activities were \$454,683 representing a 5.25% increase over the prior year while expenses totaled \$477,426, a 0.32% decrease over the prior year. The District's business type activities include the School Nutrition Fund and FFA Property. Revenue of these activities was comprised of charges for service, federal and state reimbursements and investment income.

During the year ended June 30, 2016, the District had an increase in the number of students receiving free or reduced price lunches. This resulted in an increase in federal reimbursements for the student meal program.

INDIVIDUAL FUND ANALYSIS

As previously noted, Central Lyon Community School District uses the fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$2,458,034, compared to last year's ending fund balances of \$3,448,017. However, the primary reason for the decrease in combined fund balances in fiscal 2016 is due to the completion of the construction project in fiscal year 2016.

Governmental Fund Highlights

- The District's General Fund financial position is the result of many factors. There was growth during the year in State and Federal sources but decreases in property taxes. However, the increase in expenditures required the District to use carryover fund balance to meet its financial obligations during the year.
- The General Fund balance increased from \$425,718 to \$513,812 due to the increases in property tax and state source revenues.

- The Debt Service Fund balance decreased from \$8,081 in fiscal 2015 to \$0 in fiscal 2016. The general obligation bonds were paid off in the prior year and the new debt is paid by the statewide sales, services and use taxes which will be transferred into the Fund to make the annual payments.
- The Capital Projects Fund balance decreased from \$2,517,647 in 2015 to \$1,491,718 in 2016. This was mainly due to the completion of the construction project in current fiscal year.

Proprietary Fund Highlights

School Nutrition Fund net position increased from \$96,874 at June 30, 2015 to \$124,271 at June 30, 2016, representing an increase of approximately 28.28%. For fiscal 2016, the District increased meal prices, resulting in an increase in revenues. Revenues also increased due to the federal reimbursement for the student meal program.

BUDGETARY HIGHLIGHTS

The District did not amend its budget during the year, so the original and final budget amounts remain the same.

The District's receipts were \$72,589 more than budgeted receipts, with a variance of 0.684%. The actual local tax revenues increased in fiscal year 2016 to offset the reduction in state and federal sources allowing the District to still be greater than the budgeted amount.

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should exceed actual expenditures for the year. The District did not exceed the certified budget for the year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2016, the District had invested \$12.958 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-4) This represents a net increase of 12.01% from last year. More detailed information about the District's capital assets is presented in Note 5 to the financial statements. Depreciation expense for the year was \$664,760.

The original cost of the District's capital assets was \$21.815 million. Governmental funds account for \$21.639 million, with the remainder of \$.175 million accounted for in the Proprietary, School Nutrition Fund.

The largest change in capital asset activity during the year occurred in the improvements other than buildings, construction in progress, and furniture and equipment categories. The District purchased weight room equipment, computers and completed the additions to the school buildings.

Totals	\$12,874	\$11,483	\$ 84	\$ 86	\$12,958	\$11,569	12.01%				

Long-Term Debt

At June 30, 2016, the District had \$3,228,000 in revenue and other long-term debt outstanding. This represents a decrease of approximately 1.22% from last year. (See Figure A-5) Additional information about the District's long-term debt is presented in Note 6 to the financial statements.

The District continues to carry a general obligation bond rating of Aa3 assigned by national rating agencies to the District's debt. The Constitution of the State of Iowa limits the amount of general obligation debt districts can issue to 5 percent of the assessed value of all taxable property within the District. The District's outstanding general obligation debt is significantly below its constitutional debt limit of approximately \$24.38 million.

The District had total outstanding bonded indebtedness of \$3,000,000 and early retirement of \$228,000 at June 30, 2016.

Revenue Notes Early Retiremen

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Lyon County has advised the District it total taxable valuation will increase 6.65% for property tax collected in fiscal year 2017 due to the property valuation assessments.
- District budgeted enrollment for fiscal year 2015-2016 was 743 students. Under Iowa's school finance formula, funding is highly dependent upon enrollment. During the 2015-2016 school year, Central Lyon students who open enroll out to other districts decreased from 55 to 51 students. Because Central Lyon is the resident district, the student is counted for state funding, but then funding is paid to the receiving district. Future enrollment stability is a critical element in maintaining a sound financial foundation.

• The District entered into a new two-year bargaining agreement with the Central Lyon Education Teacher Association (CLTA) in May 2014 with an increase for 2015-16 school-year. Settlements in excess of "new money" or allowable growth in state funding will have a continuing adverse effect of the District's General Fund budget and related fund balance.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Jackie Wells, Board Secretary/Business Manager at the Central Lyon Community School District, 1105 S. Story St., Rock Rapids, IA 51246 or 712-472-2664.

Central Lyon Community School District Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds to the Statement of Activities Year Ended June 30, 2016

Net change in fund balance - total governmental funds (page 22)		\$ (989,983)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Capital outlay expenditures exceeded depreciation expense in the current year, as follows:		
Expenditures for capital assets Depreciation expense	2,056,578 (664,760)	1,391,818
The current year District employer share of IPERS contributions are reported as expenditures in the governmental funds, but are reported as a deferred outflow of resources in the Statement of Net Position.		435,683
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in the governmental funds, as follows:		
Pension expense Early retirement	(707,344) (30,000)	 (737,344)
Change in net position of governmental activities (page 19)		\$ 100,174

Non-cash investing, capital and financing activities:

During the year ended June 30, 2016, the District received \$28,393 of federal commodities.

(1) Summary of Significant Accounting Policies

The Central Lyon Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. The geographic area served includes the cities of Rock Rapids and Doon, Iowa, and the predominant agricultural territory in Central Lyon County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Central Lyon Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The District has no component units which meet the Governmental Accounting Standards Board criteria.

B. Basis of Presentation

<u>Government-wide Financial Statements</u> – The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely, to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following categories:

Net Investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often subject to constraints imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> – Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds are reported as separate columns in the fund

financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

The District reports the following major governmental funds:

The General Fund is the main operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The District reports the following major proprietary fund:

The District's major proprietary fund is the School Nutrition Fund. This fund is used to account for the food service operations of the District. The other proprietary fund is the FFA Property Fund which is used to account for the FFA cattle raising operations.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when the cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net positions available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Funds are charges to customers for sales and services. Operating expenses for the Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity
The following accounting policies are followed in preparing the financial statements:

<u>Cash</u>, <u>Pooled Investments and Cash Equivalents</u> – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit, which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u> – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year become effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds becomes due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments, is based on January 1, 2014 assessed property valuations, is for the tax accrual period July 1, 2015 through June 30, 2016 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2015.

<u>Due from Other Governments</u> – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Inventories</u> – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u> – Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at acquisition value. Acquisition value is the price that would have been paid to acquire a capital asset with equivalent service potential. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not

capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of one year.

Asset Class	et Class Ar			
Land	\$	5,000		
Buildings		5,000		
Improvements other than buildings		5,000		
Furniture and equipment:				
School Nutrition Fund equipment		500		
Other furniture and equipment		5,000		

Capital Assets are depreciated using the straight-line method of depreciation over the following estimated useful lives:

	Estimated
	Useful Lives
Asset Class	(in Years)
Buildings	50
Improvements other than buildings	20 - 50
Furniture and equipment:	5 - 15

<u>Deferred Outflows of Resources</u> – Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the employer after the measurement date but before the end of the District's reporting period.

<u>Salaries and Benefits Payable</u> – Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

<u>Compensated Absences</u> – District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2016. The compensated absences liability attributable to the governmental activities will be paid by the General Fund.

<u>Long-term liabilities</u> – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

<u>Pensions</u> – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to / deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Deferred Inflow of Resources</u> – Deferred inflow of resources represent an acquisition of net position that applies to a future year(s) and will not be recognized as an inflow of resources

(revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflow of resources in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflow of resources consists of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflow of resources in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

<u>Fund Equity</u> – In the governmental fund financial statements, fund balances are classified as follows:

<u>Restricted</u> – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

<u>Unassigned</u> – All amounts not included in other spendable classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2016, the expenditures did not exceed the amounts budgeted or the General Fund unspent authorized budget.

(2) Cash, Cash Equivalents and Pooled Investments

The District's deposits in banks at June 30, 2016 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2016, the District had investments in the Iowa Schools Joint Investment Trust Direct (ISJIT) Government Obligations Portfolio which are valued at an amortized cost of \$134,745.00 pursuant to Rule 2a-7 under the Investment Company Act of 1940. The investment in the Iowa Schools Joint Investment Trust was rated AAAm by Standard & Poor's Financial Services.

(3) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2016 is as follows:

Transfer to:	Transfer from Account:	Aı	mount
Debt Service	Local Option Sales	\$	43,448
Physical Plant and Equipment Levy	Debt Service		(8,087)
		\$	35,361

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Categorical Funding

The District's reserved fund balance for categorical funding at June 30, 2016 is comprised of the following programs:

Program	Α	Amount
Statewide Voluntary Four-Year-Old Preschool Program	\$	177,577
Teacher Salary Improvement		4,346
Early Literacy		9,502
Professional Development for ICC		42,187
TLC Planning Grant		24,769
Educator Quality, Professional Development		15,460
	\$	273,841

(5) Capital Assets

Capital assets activity for the year ended June 30, 2016 was as follows:

C		Increases	Decreases	End of Year
Governmental activities:				
Capital assets not being depreciated:				
Land \$	51,000	\$ -	\$ -	\$ 51,000
Construction in progress	2,310,337	-	2,310,337	-
Total capital assets not being depreciated	2,361,337	=	2,310,337	51,000
Capital assets being depreciated:				
Buildings	12,725,562	3,938,598	-	16,664,160
Improvements other than buildings	1,364,376	-		1,364,376
Furniture and equipment	3,131,227	428,317		3,559,544
Total capital assets being depreciated	17,221,165	4,366,915	-	21,588,080
Less accumulated depreciation for:				
Buildings	5,995,034	406,166	_	6,401,200
Improvements other than buildings	570,735	60,335	_	631,070
Furniture and equipment	1,534,089	198,259	-	1,732,348
Total accumulated depreciation	8,099,858	664,760	-	8,764,618
Total capital assets being depreciated, net	9,121,307	3,702,155	=	12,823,462
Governmental activities capital assets, net \$	5 11,482,644	\$ 3,702,155	\$ 2,310,337	\$ 12,874,462
	Balance Beginning of			Balance End
<u> </u>	Year	Increases	Decreases	of Year
Business type activities:

Business type activities capital assets, net	86,262	\$ (2,581)	\$ -	\$ 83,681

Depreciation expense was charged to the following functions:

C . 1	
Governmental	activities.

Instruction:	
Regular	\$ 494,285
Support services:	
Instructional staff	125,720
Operation and maintenance of plant	10,697
Transportation	 34,058
	664,760
Unallocated	 -
Total depreciation expense - governmental activities	\$ 664,760
Business type activities:	
Food service operations	\$ 2,581

(6) Long-Term Debt

A summary of changes in long-term debt for the year ended June 30, 2016, is as follows:

		Balance						Balance		Due
	Beginning							End	,	Within
	of Year		Additions		Reductions		of Year		One Year	
Governmental activities:										
Revenue bonds	\$	3,000,000	\$	-	\$	-	\$	3,000,000	\$	180,000
Net pension liability		2,823,745		489,895		-		3,313,640		-
Early retirement		268,000		30,000		70,000		228,000		-
Compensated absences		48,169		54,646		48,169		54,646		54,646
Total	\$	6,139,914	\$	574,541	\$	118,169	\$	6,596,286	\$	234,646
	Balance							Balance		Due
	Beginning							End	,	Within
	of Year		Additions		Reductions		of Year		One Year	
Business type activities:										
Net pension liability	\$	69,558	\$	25,322	\$	-	\$	94,880	\$	

Revenue Bonds

Details of the District's June 30, 2016, statewide sales, services and use tax revenue bonded indebtedness are as follows:

Year	School Infrastructure Sales,					
	Services & Use Tax Revenue					
	Во					
Ending	Interest					
June 30,	Rate	Principal	Interest	Total		
2017	1.000%	\$ 180,000	\$ 86,895	\$ 266,895		
2018	1.350%	185,000	85,095	270,095		
2019	1.700%	190,000	82,598	272,598		
2020	2.050%	195,000	79,368	274,368		
2021	2.400%	200,000	75,370	275,370		
2022	2.750%	205,000	70,570	275,570		
2023	3.000%	210,000	64,933	274,933		
2024	3.150%	215,000	58,633	273,633		
2025	3.300%	220,000	51,860	271,860		
2026	3.450%	225,000	44,600	269,600		
2027	3.600%	235,000	36,838	271,838		
2028	3.750%	240,000	28,378	268,378		
2029	3.850%	245,000	19,378	264,378		
2030	3.900%	255,000	9,945	264,945		
Total		\$ 3,000,000	\$ 794,458	\$ 3,794,458		

The District has pledged future statewide sales, services and use tax revenues to repay the \$3,000,000 of bonds issued in December 2014. The bonds were issued for the purpose of financing a portion of the costs of a new addition to the school. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2030. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 50% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the bonds is \$3,794,458. For the current year, no principal was paid but \$43,447.50 of interest was paid on the bonds. The total statewide sales, services and use tax revenues were \$638,340.69.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a. All proceeds from the statewide sales, services and use tax shall be placed in a revenue account.
- b. The School Infrastructure Sales, Services and Use Tax Revenue Bond Interest Sinking Fund is to be established and required deposits equal to the monthly amount necessary to pay in full the installment of interest and principal coming due on such Bonds until the full amount of such installment is on hand.
- c. Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

The District did not comply with all of the revenue bond provisions during the year ended June 30, 2016. The required sinking fund was not established by the District and no transfers were made.

(7) Pension Plan

Plan Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive, P.O. Box 9117, Des Moines, IA, 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

<u>Pension Benefits</u> – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member's first month of entitlement to benefits.) Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary).

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before age 65

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

<u>Disability and Death Benefits</u> – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefits or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS' Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2016, pursuant to the required rate, Regular members contributed 5.95 percent of pay and the District contributed 8.93 percent for a total rate of 14.88 percent.

The District's contributions to IPERS for the year ended June 30, 2016 were \$447,203.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions – At June 30, 2016, the District reported a liability of \$3,408,520 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2015, the District's proportion was 0.068562 percent, which was a decrease of 0.001210 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of \$211,350. At June 30, 2016, the District Reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Ου	Deferred atflows of esources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$	20,809	\$	-
Changes of assumptions		(30,773)		-
Net difference between projected and actual earnings on pension plan investments		509,982		793,660
Changes in proportion and differences between District contributions and proportionate share of contributions		(228,942)		-
District contributions subsequent to the measurement date		447,203		_
Total	\$	718,279	\$	793,660

The District reported \$447,203 as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended	
June 30,	
2017	\$ (87,166)
2018	(87,166)
2019	(87,166)
2020	137,523
2021	(1,422)
Total	\$ (125,397)

There were no non-employer contributing entities to IPERS.

<u>Actuarial Assumptions</u> – The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2014)	3.00% per annum
Rate of salary increases (effective June 30, 2010)	4.00 to 17.00%, average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 1996)	7.50% compounded annually, net of investment expense, including inflation.
Wage growth (effective June 30, 1990)	4.00% per annum, based on 3.00% inflation and 1.00% real wage inflation.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core Plus Fixed Income	28%	2.04%
Domestic Equity	24%	6.29%
International Equity	16%	6.75%
Private Equity	11%	11.32%
Real Estate	8%	3.48%
Credit Opportunities	5%	3.63%
U.S. TIPS	5%	1.91%
Other Real Assets	2%	6.24%
Cash	1%	(0.71%)
Total	100%	

<u>Discount Rate</u> – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the IPERS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u> – The following presents the District's Proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the District's proportionate share of the

et pension liability would be if it were calculated using a discount rate that is 1% lower (6.50 %) or 1% higher (8.50%) than the current rate.

	1% Decrease	Discount Rate	1% Increase
	(6.5%)	(7.5%)	(8.5%)
District's proportionate share			
of the net pension liability	5,967,705	3,408,520	1,248,384

<u>Pension Plan Fiduciary Net Position</u> – Detailed information about the IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at <u>www.ipers.org</u>.

<u>Payables to the IPERS</u> – At June 30, 2016, the District reported payables to IPERS of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

(8) Other Postemployment Benefits (OPEB)

<u>Plan Description</u> – The District offers a single-employer health benefit plan which provides medical and prescription drug benefits for employees, retirees and their spouses. There are 80 active and 5 retired members in the plan. Retired participants must be 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully-insured plan with Sanford Health Plan. Retires under age 65 pay the same premium for the medical/prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

<u>Funding Policy</u> – The contribution requirements of the plan members are established and may be amended by the District. The District currently finances the postretirement benefit plan on a pay-as-you-go basis.

<u>Annual OPEB Cost and Net OPEB Obligation</u> – The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2016, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 81,815
Interest on Net OPEB Obligation	4,691
Adjustment to annual required contribution	(4,160)
Annual OPEB Cost	82,346
Contributions made	-
Increase in Net OPEB Obligation	82,346
Net OPEB obligation-beginning of year	104,246
Net OPEB obligation-end of year	\$ 186,592

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2016.

For the year ended June 30, 2016, the District contributed \$0 to the medical plan. Plan members eligible for benefits contributed \$0 or 0.0% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation are summarized as follows:

Year			Percentage of				
Ended	Anı	nual OPEB	Annual OPEB	N	Net OPEB		
June 30		Cost	Cost Contributed	O	bligation		
2014	\$	33,326	0%	\$	70,920		
2015		33,326	0%		104,246		
2016		82,346	0%		186,592		

<u>Funding Status and Funding Progress</u> – As of July 1, 2015, the most recent actuarial valuation date for the period July 1, 2015 through June 30, 2016, the actuarial accrued liability was \$684,970, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$684,970. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$5,007,876 and the ratio of the UAAL to covered payroll was 13.68%. As of June 30, 2016, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for Retiree Health Plan, presented as Required Supplementary Information in the section following the Notes to Financial statements, presents the multiyear trend information whether the actuarial value of plan assets in increasing or decreasing over time relative to the actuarial liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2015 actuarial valuation date, the projected unit credit cost method was used. The actuarial assumptions include a 5% discount rate based on the District's funding policy. The projected annual medical trend rate is 11.00%. The ultimate medical trend rate is 6.00%. An inflation rate of 0% is assumed for the purpose of this computation.

Mortality rates are from the RP2000 Group Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2014 and applying termination factors used in the IPERS Actuarial Report as of June 30, 2014.

Projected claim costs of the medical plan are \$790 per month for retirees less than age 65 and not available for retirees who have attained age 65. The salary increase rate was assumed to be 3.5% per year. The UAAL is being amortized over the maximum allowable period of 60 years on an open basis.

(9) Termination Benefits

The District has offered a voluntary early retirement plans to its employees.

During the 2013-2014 year a voluntary early retirement plan was offered. The eligible employees to the current plan must have completed at least ten years of full-time service to the District and must have reached the age of fifty-five and must apply by December 14, 2013. The benefit shall be \$30,000 paid as a Health Reimbursement Arrangement (HRA) account in \$6,000 increments paid by

June 30 for five consecutive years. There were seven participants who retired early. Actual early retirement expenditures for this plan for the year ended June 30, 2016 totaled \$42,000. The remaining installments will be paid July 1, 2016, July 1, 2017, and July 1, 2018 of \$6,000 each year for each retiree totaling \$126,000.

During the 2014-2015 year a voluntary early retirement plan was offered. The eligible employees to the current plan must have completed at least ten years of full-time service to the District and must have reached the age of fifty-five and must apply by December 14, 2014. The benefit shall be \$30,000 paid as a Health Reimbursement Arrangement (HRA) account in \$6,000 increments paid by June 30 for five consecutive years. There were three participants who retired early. Actual early retirement expenditures for this plan for the year ended June 30, 2016 totaled \$18,000. The policy requires benefits be paid in five equal installments beginning July 1, 2015. The remaining installments will be paid July 1, 2016, July 1, 2017, July 1, 2018, and July 1, 2019 of \$6,000 each year for each retiree totaling \$72,000.

During the 2015-2016 year a voluntary early retirement plan was offered. The eligible employees to the current plan must have completed at least ten years of full-time service to the District and must have reached the age of fifty-five and must apply by December 14, 2015. The benefit shall be \$30,000 paid as a Health Reimbursement Arrangement (HRA) account in \$6,000 increments paid by June 30 for five consecutive years. There was one participant who retired early. Actual early retirement expenditures for this plan for the year ended June 30, 2016 totaled \$0. The policy requires benefits be paid in five equal installments beginning July 1, 2016. The remaining installments will be paid July 1, 2016, July 1, 2017, July 1, 2018, and July 1, 2019 of \$6,000 each year for each retiree totaling \$30,000.

At June 30, 2016, the District has obligations to eleven participants with a total liability of \$228,000. Actual early retirement expenditures for the year ended June 30, 2016 totaled \$70,000.

Year Ending								
June 30,	A	Amount						
2017	\$	66,000						
2018		66,000						
2019		66,000						
2020		24,000						
2021		6,000						
	\$	228,000						

(10) Risk Management

Central Lyon Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(11) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$314,670 for the year ended June 30, 2016, and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(12) Operating Lease Agreement

The District entered into a 12 month operating lease agreement for three copiers on August 17, 2015. Payments are made quarterly of \$1,860 and will end August 2016 with total payments in the current year of \$7,440.

(13) Subsequent Events

The District has evaluated for subsequent events through January 17, 2017, the date which the financial statements were available to be issued. The District is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

Central Lyon Community School District Notes to Required Supplementary Information – Budgetary Reporting Year ended June 30, 2016

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2016, disbursements did not exceed the amounts budgeted and the District did not exceed its General Fund unspent authorized budget.

Central Lyon Community School District Schedule of the District's Proportionate Share of the Pension Liability Iowa Public Employees' Retirement System Last Fiscal Year* Required Supplementary Information

	2016	2015

Central Lyon Community School District Notes to Required Supplementary Information – Pension Liability Year Ended June 30, 2016

Changes of benefit terms:

Legislation passed in 2010 modified benefit terms for current Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3 percent per year measured from the member's first unreduced retirement age to a 6 percent reduction for each year of retirement before age 65.

In 2008, legislative action transferred four groups – emergency medical service providers, county jailers, county attorney investigators, and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Changes of assumptions:

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Moved from an open 30 year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20 year period.
- The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:
 - Adjusted retiree mortality assumptions.
 - Modified retirement rates to reflect fewer retirements.
 - Lowered disability rates at most ages.
 - Lowered employment termination rates.
 - Generally increased the probability of terminating members receiving a deferred retirement benefit.
 - Modified salary increase assumptions based on various service duration.

The 2007 valuation adjusted the application of the entry age normal cost method to better match projected contributions to the projected salary stream in the future years. It also included in the calculation of the UAL amortization payments the one-year lag between the valuation date and the effective date of the annual actuarial contribution rate.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education of Central Lyon Community School District:

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Central Lyon Community School District as of and for the year ended June 30, 2016, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 17, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Central Lyon Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Central Lyon Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Central Lyon Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified deficiencies in internal control over financial reporting we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weaknesses is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control described in Part I of the accompanying Schedule of Findings as item I-A-16 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Central Lyon Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2016 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Central Lyon Community School District's Responses to Findings

Central Lyon Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings. Central Lyon Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the Central Lyon Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Central Lyon Community School District Schedule of Findings Year Ending June 30, 2016

Part I: Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCY:

I-A-16 The School District's internal control structure should be designed to provide for the preparation of the financial statements being audited. The School District requested the external auditors to prepare the financial statements and related note disclosures as part of our regular audit services.

Recommendation – it is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations. During 2006, a new auditing standard from the American Institute of Certified Public Accountants, SAS 112, became effective. This statement requires auditors to communicate this situation to the state as an internal control deficiency. Ultimately, it is management's responsibility to provide for the preparation of the District's statements and notes, and the responsibility of the auditor to determine the fairness of presentation of those statements. From a practical standpoint we do both for you at the same time in connection with our audit. This is not unusual for us to do this with organizations of your size. However, based on this new auditing standard, it is our responsibility to inform you that this deficiency could result in a misstatement to the financial statements that could have be prevented or detected by the District's management. As in prior years, we have instructed management to review a draft of the auditor prepared financials in detail for their accuracy; we have answered any questions they might have, and encouraged research of any accounting guidance in connection with the adequacy and appropriateness of classification and disclosure in your statements. We are satisfied that the appropriate steps have been taken to provide you with the completed financial statements.

<u>Recommendation</u> – It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

<u>Response</u> – We are aware of the risk associated with not preparing our financial statements, but believe our review of the financial statements to be adequate to reduce this risk.

Conclusion - Response accepted.

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

Central Lyon Community School District Schedule of Findings Year Ending June 30, 2016

Part II: Other Findings Related to Required Statutory Reporting:

- II-A-16 <u>Certified Budget</u> Expenditures for the year ended June 30, 2016, did not exceed the certified budgeted amounts. The District did not exceed its General Fund unspent authorized budget for the year ended June 30, 2016.
- II-B-16 <u>Questionable Expenditures</u> No expenditures were noted that might not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- II-C-16 <u>Travel Expense</u> No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- II-D-16 <u>Business Transactions</u> Business transactions between the District and District officials or employees are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount
Amy Jans, Spouse of Board Member, Owner of Rock Paper Scissors	Purchased supplies	\$8,907.70
David Fields, Employee, Rapid Grow Lawn	Maintenance of Grounds	\$15,530.00
Mark McCarty, Employee McCarty Repair	Vehicle Repair Service	\$ 2,587.77
Terry VanBerkum, Employee Carpet Layer	Laid carpet in classrooms	\$6,108.55

In accordance with an Attorney General's opinion dated November 9, 1996, the transactions with Amy Jans, Dave Fields, Mark McCarty, and Terry VanBerkum were subjected to competitive bidding processes.

Two of the local banks in Rock Rapids that the District has accounts with employ related parties of the District, all transactions with these bank are in the course of normal banking transactions.

- II-E-16 <u>Bond Coverage</u> Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage amounts should be reviewed annually to insure adequacy for current operations.
- II-F-16 <u>Board Minutes</u> No transactions requiring Board approval, which had not been approved by the Board, were noted.
- II-G-16 <u>Certified Enrollment</u> No variances in the basic enrollment data certified to the Iowa Department of Education were noted.
- II-H-16 <u>Supplementary Weighting</u> No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- II-I-16 <u>Deposits and Investments</u> No instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.
- II-J-16 <u>Certified Annual Report</u> The Certified Annual Report was certified timely to the Iowa Department of Education.
- II-K-16 <u>Categorical Funding</u> No instances were noted of categorical funding used to supplant rather than supplement other funds.

Central Lyon Community School District Schedule of Findings Year Ending June 30, 2016

II-L-16 <u>Statewide Sales, Services and Use Tax</u> – No instances of non-compliance with the use of the statewide sales, service and use tax provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, service and use tax. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2016, the following information includes the amounts the District reported for the statewide sales, services and use tax revenue in the District's CAR including adjustments identified during the fiscal year audit:

Beginning balance		\$2,325,711
Revenues/transfers in:		
Sales Tax Revenues	\$ 638,341	
Other	78,691	717,032
Expenditures/transfers out:		
School infrastructure construction	(1,783,174)	
Transfers to other funds		
Debt service fund	(43,448)	(1,826,622)
Ending balance		\$1,216,121

For the year ended June 30, 2016, the District reduce the following levies as a result of the monies received under Chapter 423F.5 of the Code of Iowa:

	Rate of Levy				
	Reduction Per				
	\$1,000 of	P	roperty		
	Taxable	Tax Dolla			
	Valuation	R	educed		
Debt service levy	0.90626	\$	98,179		

- II-M-16 Deficit Balances There were no funds with a deficit balance at June 30, 2016.
- II-N-16 <u>Student Activity Fund</u> In accordance with Chapter 298A.8 of the Code of Iowa and Iowa Administrative Rule 281-12.6(1), monies in the Student Activity Fund should be used to support only the extracurricular and co-curricular activities offered as part of the District's educational program. All accounts reported in the Special Revenue Student Activity Fund appear to be extracurricular or co-curricular in nature.
- II-O-16 <u>Revenue Bonds</u> The District has not made the required monthly transfers from the revenue account to the sinking account.

<u>Recommendation</u> – The District should make the monthly transfers to the sinking account as required by the bond resolution.

Response – We will begin making transfers to a sinking account.

<u>Conclusion</u> – Response accepted.
